ANNOUNCEMENT.

We are authorized to announce to the voters of the Fifth Judicial Circuit, comprising Clark, Union, DeWitt, Champaign, Piatt, Madison and Macon, that the election for the office of Judge of the Circuit Court will be held on the first Monday in August next.

We are authorized to announce to the voters of the Sixth Judicial Circuit, comprising Clark, Union, DeWitt, Champaign, Piatt, Madison and Macon, that the election for the office of Judge of the Circuit Court will be held on the first Monday in August next.

CITY DEPARTMENT.

July plays out to-day. A more agreeable month of that name has seldom been experienced in this part of the country.

If summer was a long time getting here it has been very agreeable since its arrival.

Now that excitement over the strike is dying out people will return to the consideration of the Eastern war.

Go to Nidmeyer's for best tea and coffee, as custom figures.

Newell & Hammer have choice butter and factory cheese of superior quality.

H. Post has a large and select stock of jewelry, clocks and watches, which he can sell at first cost.

For Childwell Bro.'s hack leave orders at the stable on West Main street, or at Gue & Son's drug store, on Water street.

For chamotte skins, sponges and brushes, go to Armstrong's.

Birkett & Bullard keep a choice stock of smoking and chewing tobacco.

The best of everything in the line of meats, together with fresh fruits and vegetables, at Young's market, on Prairie street.

The grading of East Main street progresses finely, and will soon be ready for the curbing and graveling.

Remember the excursion to Bloomington tomorrow. The Macon people will be glad to have as many as can go along from here. We presume that several of our people will embrace the opportunity offered for a cheap pleasure trip, while they may, by so doing, contribute to a good cause.

It is thought by the farmers that rain would be beneficial to corn just now, as the oats are setting.

It would be hard to find better weather for harvesting than this. The hay crop will be mostly gathered this week, except in low meadows where the coarser quality of hay grows. Oats, as well as wheat, are turning out well, and, as a general thing, the straw is erect and the berry is plump. The yield will be above the average, and the quality is excellent.

Insane.—This morning in Judge Green's court Patrick H. Quinn was adjudged insane, a record of which proceedings will be sent to Jacksonville at once with a view to securing his admission to the asylum for the insane. As this institution is already full, it is a matter of doubt about his being received.

Election of Officers.—The following named persons were elected officers for the ensuing quarter, at the session of the Good Templars' Lodge last evening:

Theodore Nelson, W. G. T.
Miss Lucy Irwin, W. V. T.
John S. House, W. R. S.
Theodore Coleman, W. F. S.
Mrs. C. Kirby, W. T.
Clay Dempsey, W. M.
Miss Ruth Coker, W. I. G.
Wm. Leiby, Jr., W. S.

Pistol Shots.—Last night, between twelve and one o'clock, three pistol shots were fired in Cassell's Grove, just east of the Illinois Central Railroad track, locally considerable excitement in that locality was the result. Who fired the shots, or at whom they were aimed, no one could ascertain. We understand that a special policeman, on duty in that vicinity, took to his heels in terror, and ran a mile to get out of the way.

PERSONAL MENTION.

A. B. Gorman, Esq., late of the Macon News, is in town to-day. He is preparing to "go west," and expects to settle at Colorado Springs, Co. May his success be all that he could desire.

L. R. Morse, Esq., of Illinois, is in town to-day, and of course, called at the Republican office. He reports the oat harvest as nearly over, and the crop is excellent. Corn is coming on finely, and many fields which were thought to be past recovery, are coming up under the genial influence of the weather, and will yield a fair crop, if there are no early frosts.

Mr. Will White has returned from Iowa where he has been spending several weeks for his health. He has accepted a position in the drug store of Gue & Son, where he will be happy to see his friends.

Mr. Conklock, Barnum's advance agent, is in the city to-day, and will proceed to bill the towns for the big show, which is to be on the 15th of August.

THE BALLOON ASCENSION.

A Pleasant Start on a Heavenly Trip.
A Large Crowd to Witness the Going Up—7,000 Feet in the Air—A Safe Return to Earth, and to Decatur.

The weather yesterday afternoon was in all respects favorable to an aerial trip, and in accordance with announcement previously made, Mrs. J. A. Light, entertained a large crowd of people by making a beautiful balloon ascension, from the corner of East Wood and Jackson streets, in this city. To supply the airship with gas, the main on East Wood street was tapped at the place above indicated. The process of inflation commenced at about 2 1/2 o'clock, and went on gradually until about five—Mrs. Light superintended the inflation herself, and seemed to be as cool and deliberate as if she was simply preparing for a journey in the cars. Everything being ready, the ropes which held the ship to its moorings were unhooked and held firm in the hands of several of the spectators, and when Mrs. Light gave the order to slide out, the ropes were allowed to slip through the hands of those holding them until they straightened over the basket to which they were attached. The lady then stepped into the basket, and gave the order to let go, at which every hand unhooked its hold, and the balloon arose gracefully, its occupant waving her hand and bidding the crowd good-bye, while hats were swung and hearty cheers were given. When about 50 feet high Mrs. L. threw out a shower of envelopes containing orders for various prizes, to be drawn at Martin's confectionery. This caused a lively scramble among the boys for the possession of the envelopes.

In its upward flight the balloon at first took a northwesterly direction, but when a few hundred feet from the ground it met a current of air which took it in a southwesterly direction, in which course it continued until it began to descend. Many of our people watched the aerial traveler in her majestic flight, until it appeared the balloon seemed no larger than a small basket. It was not out of sight before it started on its return trip to terra firma. Along the route of the rosyager many eyes caught sight of the aerial craft, and as soon as it was seen that it was approaching the earth, there was a hastening of men and boys to the spot over which the descent was being made.

The balloon landed just south of the river, about three miles south of Harrisburg, in a corn field, on the farm of Mr. W. C. Davis. The first persons to render Mrs. Light assistance were Milton Walker and Frank Alsop. She then went to the residence of widow Hanks, for supper, and was brought to town by Mr. Joshua B. Hanks, arriving at Priest's Hotel about eleven o'clock.

We give the following account of the trip as given by Mrs. Light, her altitude being determined by a barometer which she takes with her in all her ascensions.

At a quarter past five o'clock the cords were let loose. At the first observation the balloon was directly over the Priest House, at an altitude of 2500 feet, and sailing northwest, everything in full view. At the second observation the balloon was south of the fair ground, at an altitude of 3000 feet, sailing due west, and the passenger train for St. Louis in full view. At the third observation the altitude was 3500 feet, sailing southwest, and passenger train to the left passing over the river bridge; passengers on the platform with light clothes on.

At the fourth observation the altitude was 4,500 feet directly over the river. All ballast was thrown out, and an altitude of 7,000 feet was attained, which was the last observation made. The balloon then descended rapidly and landed as stated above.

Mrs. L.'s verbal description of her trip represents the view from her balloon as being in the highest degree beautiful. At her highest altitude she could hear the voices of men and boys, the barking of dogs and the cawing of hens. Her passage over the region traversed created the wildest excitement on the part of the people along the route—women and children walking, a mile and a half across fields to witness her descent.

As she came down she struck the same current of air which took her to the northwest when she first left the ground, and by this her balloon was carried toward the river, and she feared that she might come down in the timber along the river bank, but fortunately she reached terra firma just in time to avoid that peril.

Those who have witnessed several ascensions say that this was the finest they ever saw. We most cordially congratulate the lady upon her successful voyage, and should she at some future time entertain our people in a similar manner we presume she will have no difficulty in raising a liberal sum to compensate her. This was her fourth ascension.

A Rattlesnake in Town.—There is a large rattlesnake prowling about on East Wood street, between Water street and the culvert at the foot of the hill south of the gas works. [One of the policemen saw his snakeship on the walk near the residence of Mr. Allen Scott, and he has been seen by one or two others, but got out of the way before he could be despatched. The policeman who saw him kindly notified the people of that neighborhood of his presence, that they might be on the lookout for him.]

Go to E. B. Pratt's, 37 North Church street, for your groceries, glass and crockery. [April 13—dzw]

PRELIMINARY EXAMINATION OF THE STRIKERS.

This morning at half past 10 o'clock the preliminary examination of those engaged in the recent railroad strike was commenced, calling together a large crowd at the court house, where the examination was conducted before Justice Peake. State's Attorney Buckingham, assisted by Messrs. Nelson & Roby, are conducting the prosecution, the defense (on the part of six) being represented by Messrs. Crea & Ewing.

Mr. Crea moved for a separate hearing of Oliver Lee, one of the prisoners; objected to by Mr. Buckingham, and the motion denied by the court.

Bert. Cornsaw sworn for the prosecution—Am a railroad man, acquainted with the defendants; saw them at the depot, but not doing anything out of the way; heard them say they had telegraphed to Sup't Bradley, of the Wabash road, was not asked to join the strikers; saw some one side-track the St. Louis passenger train, did not see water let out of engine; did not see any freight trains switched, attended one meeting in the hall for 15 minutes; saw Bennett, who seemed to be chairman; they said their committee had decided on wages to be received by yardmen, brakemen, etc.; believe they said they had stationed guards; I saw three on watch Thursday night, wanted me to watch at the depot that no burglary was committed, remained on guard until 9 o'clock.

Cross-Examination.—This was the end of the run for the St. Louis passenger train, and the cars were on the side track where coaches are usually placed; was requested to stand guard to protect property from thugs and outside strikers.

Peter Birmingham sworn—Switchman on the Wabash; have seen all but one of the defendants about the yard; did not see them touch trains running through; never saw fire-dumped or water drawn from boilers; attended two meetings, believe I saw all the defendants, don't know what they were talking about; was there only a short time; don't know that the defendants prevented trains from passing through; never was selected as watchman to remain at the depot nights, none of the defendants gave me any directions as to watching; was instructed by Mr. Fanning.

Cross-Ex.—Mr. Fanning was the general yard master and whose duty it was to instruct me.

W. W. Swearingen sworn—Was in the coach attached to the fruit train, saw Mr. Reeves and asked him if he was going to let that train go through, he said he was trying to have it proceed saw no one else there, the train was still on the main track when I left, never saw any of the defendants there afterwards, don't know that there was a committee.

Thos. Foster sworn: Resides at Wapella; am a railroad man, came to Decatur Wednesday with a train loaded with fruit, was stopped at the north end of the yard—don't know by whom; those who stopped me said they would take charge of the train; had no conversation with any of them, saw Milton, Fleener, Bennett, Reeves and one other, on Wednesday and Thursday; Reeves said no freight trains were allowed to run—that he was opposed to stopping any trains on the Illinois Central; did not talk with any others of the defendants; did not see the stock car stopped; the water was let out of my engine—don't know when, where, or by whom, a committee came in a coach and inquired as to freight trains; Millington was the only one I recognized; he said it would not be best for the Central to attempt to run trains.

Cross-examination.—Don't recognize any of the defendants as among those who took my train from me.

The examination is still in progress as we go to press.

DECATUR FURNITURE FACTORY.

We learn that Messrs. B. F. Bateman & Co., of Bloomington, have taken charge of the Phoenix Hotel, at that place, and have thoroughly remodeled, and are now furnishing it with new and elegant furniture from our Decatur Furniture Manufactory, specially designed by their artist, and will open about the first of August, one of the finest and best furnished hotels in central Illinois. We advise our citizens, when visiting Bloomington, to call on the Messrs. Bateman & Co., who, we are assured, will spare no pains in entertaining their guests in the very best manner. We are informed the proprietors examined furniture at different manufactories and decided the Decatur furniture manufactory offered the best goods at the lowest prices, and so placed their order with them. It is with pleasure we record the growing popularity of our Decatur Furniture Manufactory, and the fact of their goods meeting the favor they so justly merit.

Since winning the above we learn they have secured the contract for making the fine geological cases for the State House at Springfield, and also for the furniture of the People's Mind Institute at Lincoln, and are negotiating for several other large contracts, with a good prospect of securing them.

MILITARY.

(Special Order)
ADJUTANT-GENERAL'S OFFICE,
Springfield, Ill., July 30, 1877.
Isaac D. Walker, of Decatur, Ill., is hereby appointed an enrolling officer for the purpose of mustering into State service a company of Illinois National Guards in the city of Decatur, Ill., to be attached to the 5th Regiment Illinois National Guards, Col. J. H. Barkley commanding.

By order of Commander-in-Chief.
H. HILLIARD,
Adjutant-General.

In pursuance of the above order those young men who have given in their names for the organization of a military company, and who are called to meet at Goodman's Hall on Friday evening of this week, are requested as far as practicable, to call at the office of I. D. Walker, on Prairie street, and enrol and take the oath required, by law between this and the time of the meeting.

Strikers Taken in Hand by Uncle Sam.—It seems that the strikers who have interfered with the trains on the L. B. & W. R'y., are liable to fare worse than the strikers on the other roads.—It seems that this road is in the hands of a receiver appointed by the United States Courts, and it is held that for this reason parties obstructing trains on this road are guilty of contempt of the court in whose hands the road is, therefore persons guilty of obstructing its trains are turned over to the hands of U. S. officers. On last evening a special train came to town over the L. B. & W. road, having on board twenty-six prisoners from Champaign and Urbana, who had been prominent in the obstruction of trains on that road. They were on their way to Springfield in charge of a United States Marshal. They will be likely to get the full penalty of the law.

TEN DOLLARS REWARD.
A reward of ten dollars will be given to any person who will give information which will lead to the apprehension and conviction of the vandals who recently destroyed the shrubs and flowers on the lot of Mr. John Shellbarger, or who may have committed any other depredation upon the grounds of Decatur Greenwood Cemetery.

By order of the Board.
J. R. GORMAN, Sec'y.
